A WHOLE WORLD OF PERFECTLY HARMONIZED ELEMENTS

The use of natural materials gives incredibly relaxing properties to mattresses and pillows. For instance, the essential oils inside these products are conducive to relaxation while extract of Aloe Vera favours regeneration during sleep. Two exclusive materials have been employed in the Toscana collection: Ecogreen and Geomemory. The former is flexible yet firm, ideal for guaranteeing a perfect alignment of shoulders, back and limbs. The latter supports the various body parts independently by adapting most naturally to their shape. All models come with a mattress cover in 100% organic cotton that is fresh and comfortable to the touch, combined with a 3D band to guarantee maximum breathability.
