EU Flower

SIS, (the Swedish Standard Institute), grants all fabrics marked with the EU-flower follows the European environmental demands for textiles.

Climatex

Climatex upholstery fabrics fulfill the highest expectations with regard to well-being, beauty, safety, and longevity. The material is breathable, keeps the seat surface dry even after long seating periods, continuously balances changes in body temperature and reflects thermal radiation. Biologically regenerative raw materials are used to produce Climatex fabrics. They are picked and processed according to the Cradle to Cradle principle and are certified with Cradle to Cradle Gold.
