white leather, visible seams

verzelloni italy - noe sectional

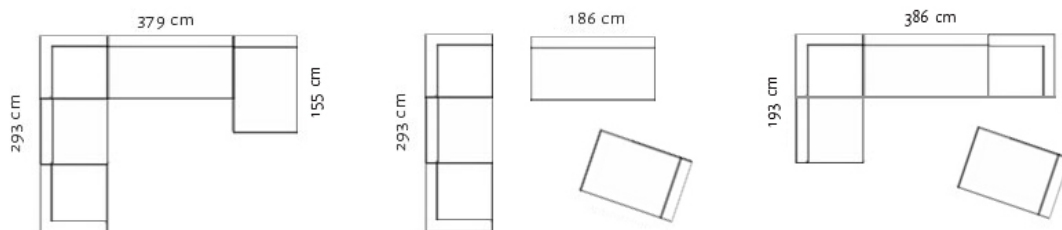

Design Lievore Altherr Molina (2009). The Noe seating system system comprises numerous sectional elements, corners, side elements, chaise lounge and ottomans, all characterized by extraordinary comfort and a soft casual appearance of restrained sophistication. A special feature is the inside of the backrest and seat which are covered with miniature polyester pearls contained in a lining made of different compartments. These pearls provide extra comfort, as well as imparting the Noe's softness and casual appearance. As Noe elements are equipped with a practical connecting system, pieces are completely modular and can be rearranged at will to your desired configuration, or used independently as separate elements. Feet in black lacquered Beech.
