[en] “If there is something that defines the *Kotai* table collection, it is precisely its soundness, as its own Japanese name denotes. Made of solid wood, its most distinctive feature is the bevel alongside its four edges and the cleavage dividing it into two identical halves and highlighting the unique possibilities of this noble material. *Kotai* is not just gorgeous but functional, with biased legs to help chairs fit smoothly and with natural elegance under the tabletop.”

[es] “Si algo define a la colección de mesas *Kotai* es su solidez, como su propio nombre, en japonés, indica. Realizada en madera maciza, su rasgo más distintivo es el bisel a lo largo de sus cuatro bordes, así como la escisión central que la divide en dos mitades idénticas y pone de relieve las posibilidades únicas de este noble material. *Kotai* no sólo es hermosa, sino funcional, con patas en proyección oblicua de modo que las sillas encajan con natural elegancia y suavidad bajo el tablero.”
